Charles Boardman V

Match

Dallas/Fort Worth Area

Dear Mr. Boardman,

I am very delighted to see that Match Affinity is seeking a visual designer, because it is my goal to work at a company whose core values match with mine. Match Affinity's mission to improve people's quality of life through finding meaningful relationships matches my personal mission.

I have Cerebral Palsy and as someone with a disability, I often feel like I don't fit in the world. Or that the world doesn't fit me. So my mission as a designer is to be an active participant in improving quality of life for people, particularly with disabilities like me, and help make the world fit better for them. I provide a unique perspective and insight to the design process, because I have been hacking my way through life and figuring out ways to function in a world that doesn't seem to be designed for me.

Since Match Affinity has products that have a niche market, I believe that my perspectives will be valuable in shaping its future. I would like to be a part of your team and help it make a meaningful difference to the human experience.

I look forward to hearing from you and thank you for your consideration.

Sincerely,

Myreille Abaya
